EXPERIENCE

06 2019 – 10 2019
JR WEBMASTER, VISTAGE WORLDWIDE INC – SHORT-TERM CONTRACT POSITION
Assisted Senior Webmaster in daily WordPress site maintenance and updates.

02 2017 – 03 2018
TECHNICIAN, SEMACON
Semacon is a company involved in redesign and production of currency counters, coin counters, coin sorters, counterfeit detectors, and other money handling equipment. As a technician my job was to disassemble the machine to the frame, insert parts that were designed by our company, and assemble the machine back. The process also involved a lot of soldering, software updating and final testing.

02 2013 – 12 2015
M1 ARMOR CREW MEMBER, US ARMY

Operated, tracked and wheeled vehicles over various terrain. Used communications equipment to receive and relay battle orders. Loaded and fired guns, including the main gun. Read maps, compasses and battle plans.

SKILLS

Problem Solving: I have always loved solving problems. Able to prioritize while multitasking and solve problems with minimal supervision.

Punctuality: I am very punctual, do not come to work late, and complete work assignments on time.

Eager to learn: Always eager to expand my knowledge and learn new concepts.

Ability to work in harmony with co-workers: Teamwork has never been an issue for me in the past.

Flexibility: Able to face the unexpected in a professional manner.

Strong attention to detail: Able to achieve thoroughness and accuracy when accomplishing a task.

CAREER OBJECTIVE

I look forward to pursuing a career as a full-stack web developer. Currently, I am enrolled in the Web Development program at San Diego Mesa College. My experience is limited to school projects that I have done so far, which involved back-end and front-end web development. My additional experience consists of working with WordPress Front-End at a previous job. I would greatly appreciate if I could find a company that would allow me to expand and grow my knowledge in the web development field. Eventually, I plan on transferring to a university to pursue a Bachelor's in Computer Science degree, which would help me advance my career as an experienced full-stack web developer.
